## Education

### PES Modern College of Engineering, PUNE

AUG 2024 - JUN 2028

Bachelor of Engineering in Information Technology - Current CGPA - 8.77

Pune, Maharashtra

## Skills

**Languages:** C++, Javascript, Java, Flutter, .NET, NodeJS, MongoDB, HTML, CSS, SQL

**Tools:** Git, Github, AWS

**Libraries / Frameworks:** ReactJS, NextJS, TailwindCSS, BootStrap

**Course-Work:** SDLC,

**Data Structures, Databases**

**Problem Solving:** Solved 150+ problem on Leetcode and GFG platform.

## EXPERIENCE

### Web Developer Intern Jun 2024 – Present

Freelancing

- Assisted in front-end and limited back-end development to enhance app speed and functionality.
- Worked with cross-functional teams to improve workflows and streamline the **payment process**.
- Contributed to a better user experience, improving usability by **20%**.

## Projects

### AI-Gen - AI Powered SaaS Platform ([Website](#)) ([Github](#)) | Next.js, Aceternity UI, Gemini API, Clerk, Postgres Sql

- Developed an AI-powered content generation platform using Next.js and API to create blogs, articles, and social media content from user **prompts**.
- User authentication powered by **Clerk**, enabling secure sign-ups, logins, and profile management.
- Developed a user-friendly **rich text editor** that allows users to review and edit AI-generated content seamlessly before finalizing.
- Automated credit updates based on word count and allowed users to manage and view their content history.

### Smart Hotel Booking System ([Github](#)) | ReactJS, ASP.NET Core, MySQL/SQL Server

- Built a full-stack hotel booking platform enabling users to **search, book, and pay** for rooms with secure JWT-based authentication.
- Hotel managers can **list properties, manage rooms**, and track bookings, while guests can leave reviews and earn loyalty points.
- Integrated REST APIs, **role-based access**, payment gateway support, and a reward system to enhance user experience.

## Achievements / Extracurricular

---

- Dedicated social work volunteer in NSS, contributing to community development through impactful projects and demonstrating commitment to social responsibility and fostering positive change.
- Awarded **4th Rank** in a Maping competition hosted by Nvidia.
- Coordinated and led **Algomania**, a standout technical event at the MPULSE-IGNITE college fest.
